## Tailormade sustainable fund balanced (VTI3)

### Investment strategy

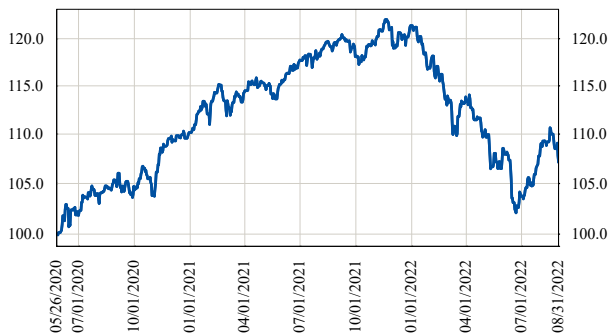

This tranche may only be purchased by insurances. The subscription of the tranche requires an overall investment volume of at least EUR 1.000.000 per investor. The fund invests mainly in instruments that are selected according to sustainable criteria. The fund invests respectively in sustainable issuers which distinguish themselves by an environmentally friendly and social acceptable policy. The fund is investing directly or indirectly in international bonds and other forms of securitised debts, money market instruments as well as sight deposits and deposits at call with a 12 month maturity as well as up to 75% of the fund volume in equities and equities equivalent securities. There is no geographical or economic focus. Derivative instruments may be used for hedging and as part of the investment strategy. The fund pursues an active management strategy without reference to a reference value. This product promotes environmental or social characteristics in terms of Art 8 of the Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector. Continuation current information can be found on the homepage of the fund manager: <https://www.metisinvest.at/dachfondsmanagement-nach-esg-aspekten>

**The fund may invest mainly in categories of assets other than securities or money market instruments.**

"Austrian eco label for sustainability fund". The Austrian Federal Ministry of the Environment has awarded the Austrian eco label ("Österreichisches Umweltzeichen") to Tailormade sustainable fund balanced (VTI3) in recognition of the fact that its stock/bond/fund share holdings were selected by applying not only economic but also ecological and social criteria. The Austrian eco label guarantees that these criteria and their implementation are appropriate for selecting stocks/bonds/fund shares. This has been verified by an independent organisation. The award of the Austrian eco label is neither an economic assessment nor an indicator of the future performance of a financial product.
